

*The power of a star in your hand...*

*E2A*

**Every Day Carry LED Flashlight**

**Exquisite Series**

## Specifications

**LED:** CREE XP-G R5 Lifetime 50 000 Hours

**Circuit:** High efficiency constant current circuit, and constant brightness.

**Working Voltage:** 0.8V - 4.2V

**14500 battery Max Output:** High/Strobe **240 lumens** for 30 Minutes

**AA battery Max Output:** High/Strobe **110 lumen** for 45 Minutes

**14500 battery Low Output:** **50 lumen** for 3 Hours

**AA battery Low Output:** **35 lumen** for 2 Hours

**Switch:** Tactical and twist switch

**Reflector:** SMO Reflector

**Waterproof:** IPX-8, beyond 5m depth

**Size:** Length 102mm, Diameter 21.5mm

**Lens:** Toughened ultra clear glass with AR coating

**Body:** Hard Anodized Type III Aluminum Alloy T6061

**Colour:** Black with stainless steel head

**Weight:** 44 Grams

*The power of a star in your hand ...*

## Instructions

**Mode A:** Non-programmable maximum brightness

Press the tail cap button to turn on.

**Mode B:** Programmable three mode option, twist the bezel 1/8 counter-clockwise, for factory default

Strobe. Press the tail cap button gently to change modes, Strobe > High > Low. Click the tail cap button to turn off and memorize the mode.

## Remarks

- Battery anode towards LED to prevent failure.
- Use the correct battery type as per instructions.
- Storage of flashlight, keep the housing dry and remove the battery.
- Damage can occur if inside surface of the reflector is touched.
- Disassembly, modification, or misuse will void the warranty.

## **Caution**

Prevent damage, use only AA or 14500 Li-ion battery.

The battery's anode, positive, must be towards the LED.

The cathode, negative facing the tail cap or switch.

To maintain the best performance, the reflector inside coating must remain untouched.

Battery housing must be kept dry,

The warranty will be void if the circuit is disassembled or modified.

## Service

*The power of a star in your hand...*

Tiablo will replace your flashlight, within 30 days of purchase, if a failure is caused by a manufacturing defect. Replacement will be with same or similar model if discontinued. Proof of purchase from an authorized dealer, or distributor, with the serial number is required.

Tiablo will repair, exchange parts, or replace your flashlight within 12 months of the purchase date, should a failure occur from normal use. If a problem develops outside of the warranty coverage, Tiablo will repair, supply parts, or replace for a fee, plus shipping cost.

Contact Tiablo, or your local distributor for details.
